## Bank deposits

An analysis of the residence of depositors can be found in figures 2 and 3, and in greater detail in Appendix 1.

Figure 2 – Analysis of bank deposits as at 31 March 2021<sup>1</sup>

Figure 3 – Deposits by residence of depositors on 31 March 2021

<sup>1</sup> Deposits are analysed between deposits from 'European non-EU Members' and other deposits. The reason for this split is that 'European non-EU Members' includes a significant element of wholesale fiduciary deposits on which margins are much lower than on other types of deposits.

# Funds and Fund Management

The following data includes both Jersey and non-Jersey domiciled funds administered in Jersey. However, excluded from the analyses are collective investment funds for which the only services provided in Jersey are distribution or similarly minor activities. These funds are regarded as non-Jersey funds for current statistical purposes.

The data also includes funds established under the Control of Borrowing (Jersey) Order 1958 (COBO). COBO funds are private schemes with fewer than 55 offers which do not require a permit under CIF Law, but which do require an initial regulatory consent in the form of a consent granted under COBO.

## Key statistics
