Careers in Finance

www.jerseyfinance.je

Key Sectors

Jersey has been a leading international finance centre for more than 50 years. Thanks to a forward-thinking approach, we're at the forefront of banking, private wealth, funds and capital markets. Jersey also sets itself apart in the specialist areas of Islamic finance, fintech, philanthropy and socially responsible investing.

Funds

Private Wealth

Banking

Fintech

Islamic Finance

Capital Markets

Philanthropy and SRI

A World of Opportunity

The finance industry in Jersey has an excellent reputation internationally and is a leading player in private wealth, funds, banking and capital markets. Jersey's highly-skilled workforce, world-class products and services, and high standards of regulation make it one of the most respected finance centres in the world. And it's a great place to work!

So is it just all about suits and spreadsheets? Not any more.

The finance industry is hugely diverse and there are plenty of job opportunities for those with excellent interpersonal and communication skills, critical thinking, flexibility and who show a willingness to learn.

There is a world of opportunity in a range of roles, from accounting to stockbroking, to marketing, human resources and IT - the list goes on.

Many companies also offer a great range of training programmes and additional qualifications, helping you to move up the career ladder.

All in all, employment in the finance industry can offer you solid career development prospects in a stimulating and rewarding working environment.

"I started working in the financial services industry in 2013, whilst studying at Jersey International Business School. Working in Jersey's finance industry has great scope for career progression for the younger generation and it provides excellent opportunities to gain professional qualifications. Since graduating, I have obtained the ACI Dealing Certificate and I am currently studying towards the Investment Advice Diploma. I would thoroughly recommend financial services for someone considering a move into the industry - it can be both challenging and rewarding, as well as providing plenty of opportunities to travel."

Katie McGinty
Client Service Manager, Standard Chartered

Why Finance?

Finance is Jersey's largest industry, employing more than 13,000 people, around a fifth of the local workforce. Not only is it an exciting and rapidly-evolving industry, it also offers a wide range of great roles across a variety of different sectors.

A Taste of Finance

If you are interested in a career in finance, there are many routes in and a range of useful resources available to you.

- Work experience
- Full time study, prior to employment
- Employment + study
- Employment + in-house training programmes

Routes into the Finance Industry

'Life in Finance' scheme

Each year, students in Year 12 can sign up to Jersey Finance's Life in Finance scheme.

The programme provides pupils with a snapshot of what it's like to work for an organisation in the world of finance through a 1-2 week work placement. More information is available at www.jerseyfinance.je/life-in-finance.

General work experience

To enhance your skills and improve the quality of your CV, you can contact firms directly to ask about work experience or entry level work.

Information on all Jersey Finance Member firms, including contact details, can be found online at www.jerseyfinance.je/member-directory. HR managers at these firms are the best people to contact.

Some work shadowing schemes are also available. For more information, visit www.gov.je/working/careers/16to19yearolds/worktraining.

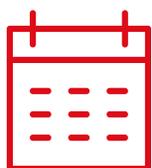

Finally, you could consider joining a professional organisation or volunteer to take part in community projects. This might provide you with opportunities to network with those who may already be working in the industry. It is also useful to get first-hand advice from friends or family who work in the industry and are willing to share their own experiences.

Studying for a relevant qualification in Jersey

Highlands College and University College Jersey offer a range of courses and degrees in finance and business.

What's more, there are a wide range of specific qualifications that local residents can obtain prior to, or after entering, employment in the finance sector. Certificated awareness programmes, short courses, e-learning and continuous development programmes (CPD) are available in Jersey too.

Careers in Finance Fayre

Keep an eye out for our 2019 Careers fayre. Our annual event allows students, graduates and career switchers to come along and meet finance companies to learn more about the opportunities available in the finance industry. www.jerseyfinance.je/working-in-finance/careersfayre

Secure a role and progress while employed

To find local job vacancies, register with employment agencies, search job sites and monitor recruitment sections in the local media.

Companies often publicly announce when they are expanding, so you could write to them and express your interest before they begin their recruitment process.

Once employed, you will find that many finance firms have professional development programmes and training schemes, positively encouraging and enabling their staff to study for qualifications (sometimes requiring it, depending on the role).

About Jersey Finance

Jersey Finance's main aim is to promote and represent Jersey, the international finance centre, with offices in Jersey, Dubai, Hong Kong, representation in London, virtual offices in Shanghai and Mumbai.

Jersey Finance also works closely with representatives from finance and education to drive awareness of career opportunities available in the Island's finance industry. The Life in Finance scheme is one of a number of Jersey Finance's education initiatives designed to help students progress from school to the professional workplace, by providing them with a taste of working in this sector through work experience placements.
