

SUSTAINABLE FINANCE FINTECH LEADERSHIP PROGRAMME

The sustainable fintech leadership programme is the first of its kind. It is a unique opportunity for fintechs to become leaders in sustainability and make their business impact oriented.

Companies are at different levels of maturity when it comes to embedding sustainability within their organisations, and fintechs are no different.

The sustainable fintech leadership programme will help participants respond to pressing environmental and social challenges.

It will equip participants with the knowledge base required to develop solid sustainability strategies to lead their organisations in the field. These are based on international best practice and delivered with support from leading faculty and international experts.

WHO IS THE PROGRAMME FOR?

This programme is for professionals in fintech firms tasked with or wishing to implement credible and transparent sustainability strategies within their organisations. These strategies will contribute towards the United Nations' Sustainable Development Goals (SDGs), and the Net Zero pledges made by several countries across the region.

After the programme, participants will:

- gain a deep understanding about developing sustainability strategies
- take existing sustainability strategy to the next level
- be part of the movement to use 'tech for good'
- gain knowledge and understandings to the latest trends and insights

STUDYING

This is a five-module programme delivered over 10 weeks. The five interactive modules are led by subject experts, practitioners, and industry guest speakers. The virtual, three-hour sessions provide a forum for knowledge-sharing, discussion, and learning.

Each module uses case studies and real-life examples to provide context, highlight successful initiatives, lessons learned, and frameworks that can be applied to participant's own fintech business.

PROGRAMME STRUCTURE

Introductory session

Participants will gain an understanding of the programme during the introductory session. Company Founders/CEOs will be invited to join participants from their firms to hear about the benefits of the programme and listen to keynote speakers, as part of a special roundtable hosted by ERM and a Fintech Association.

WHAT YOUR TEAMS WILL LEARN

Why work with The London Institute of Banking & Finance?

The London Institute of Banking & Finance has been providing industry-leading education since 1879. Today, we offer bespoke training programmes and qualifications designed to meet the needs of the modern banking and finance sector. We also provide cutting-edge thought leadership through our research centres.

Our training programs are delivered by experienced industry experts, who have held senior positions in both commercial and central banks. Our flexible, blended learning packages are delivered via innovative e-learning platforms, providing a convenient, engaging and highly interactive learning experience. Our programmes also focus on practical, real-world skills that your teams can immediately apply in their work.

Globally recognised as one of the leading providers of industry-specific education and training, we are the only banking and finance professional body in the world with degree awarding powers.

CERTIFICATION

At the end of the programme, successful participants, which is based on full attendance - will be awarded a digital endorsed Certificate from The London Institute of Banking & Finance.
